Electronic Academic School Year

What is Easy Pupils

Easy Pupils is online tool to assist with their child's education, but also aims to provide the education institutions themselves with a complete Learning Management System (LMS) & Content Management System (CMS) that will aid in their management requirements, ranging from Attendance to class scheduling , Assignments, Online Courses, Library and School reports

Easy Pupils will bridge this gap, providing parents with all the information, It is important that parents not only be informed about what their child is learning, but also about their whole wellbeing. With all this information, parents should be assured that their child is reaching their full potential, monitored and cared for by the school in accordance with expectations
